

LETTER OF ACCEPTANCE

Double M Properties in co-operation with KS-Geoenergi and St1 Lähienergia is delivering a Borehole Thermal Energy Storage system for our school in Kaustinen, Finland.

The supplied system replaces our old oil based heating system with a clean and modern system based on renewable energy. The project is in April 2020, 80 % ready, boreholes have been drilled and the auxilliary heating system for the school have been installed. During the spring 2020 the old tile roofing of our main building will be replaced by Heliostorage Solar Collector Roofing and providing us with over 200 kW of clean heating. The excess energy produced by the roof will be stored in the already installed Borehole Thermal Energy Storage. The system acceptance is excepted during summer 2020.

Kaustinen 24.4.2020

Maria Murtomäki
